

Programme Memorandum PM-2026-17

Office of Strategic Procurement

This memorandum summarises the procurement position for the coastal radar modernisation programme. Vendor shortlisting has concluded and three bids remain under technical evaluation. The evaluation committee recommends that the final award be deferred until the independent security audit of the firmware supply chain is complete. All figures below are provisional and must not be shared outside the distribution list. Any disclosure of this document is traceable to the individual decryption session that produced it. This memorandum summarises the procurement position for the coastal radar modernisation programme. Vendor shortlisting has concluded and three bids remain under technical evaluation. The evaluation committee recommends that the final award be deferred until the independent security audit of the firmware supply chain is complete. All figures below are provisional and must not be shared outside the distribution list. Any disclosure of this document is traceable to the individual decryption session that produced it.

Bidder	Technical score	Cost (Cr)	Status
Vendor A	82 / 100	412.5	Under review
Vendor B	77 / 100	389.0	Under review
Vendor C	91 / 100	455.2	Audit pending

Decision required: approve audit extension of 30 days and hold contract negotiations.
